VERSICO'S
INSULATION FASTENING PLATES

Insulation Fastening Plates TYPICAL PROPERTIES and CHARACTERISTICS	
Size	3" Round
Weight/Carton	37 lbs.
Quantity	1000 / Carton
Material	Galvalume-Coated Steel
Thickness	26 Gauge
Pull-Through Resistance	360 lb.
Corrosion Resistance	Galvalume-Coated Steel meets the FM 4470 test
Reinforcing Ribs	Added strength and stability

Overview

Versico Insulation Fastening Plates are specifically designed for attachment of insulation under Versico roofing systems. Insulation Fastening Plates are stamped from Galvalume®-coated steel for long-term protection against corrosion. The round design provides an even distribution of loads and eliminates sharp corners that can damage insulation.

Installation *

1. Position insulation plates per Versico Specifications.
2. Secure insulation plates using the appropriate Versico fastener.

Precautions

1. Eye protection is recommended during drilling and installation of fasteners.
